Shield On

The care range for cats and dogs

With Shield On, we present a new series of plant-based repellent products based on the proven active ingredient citriodiol. This natural substance offers long-lasting protection against parasites and insects – reliably and safely.

The products are non-toxic, wastewater-friendly and therefore harmless to the environment and animals. They can also be used without hesitation during sensitive phases, such as during pregnancy or with young puppies. Shield On combines effective protection with maximum tolerability.
