Dipl. Bw. Franz Hohensinner, MBA**

Consultant for pharmaceutical companies with more than 40 years of experience.

**Dr. Roland Naglis**

Sports physician at Formula Medicine & team doctor for the Canadian Ski Association

From the outset, our goal was clear: to create a functional drink you can trust. Developed by experts, with a patented, slightly alkaline formula and a targeted combination of minerals, vitamins, and functional ingredients.

BESTYOU is not an energy drink, but a patented mineral drink powder for daily support of performance, focus, and regeneration. The patented alkaline composition makes BESTYOU particularly gentle on teeth. Fructose-free, lactose-free, gluten-free, and without artificial sweeteners. Well tolerated, even for people with sensitive diets. Quality that works and convinces.

## 8 Sachets in a Practical Display

The BESTYOU sachet display is designed so that one section can be conveniently separated off. This creates a handy unit with eight sachets, ideal for taking with you or passing on to others. At the same time, the display allows for quick placement at the point of sale and uncomplicated sales.

For me, it's  
not about short-term  
pushes, but about  
clean performance.  
**BESTYOU**  
delivers exactly that.

**Parminder Singh**

*43 years old and an ambitious marathon runner for 15 years*

My name is Parminder Singh, I am 43 years old and have been an ambitious marathon runner for over 15 years. This year, I took part in the 10th Ljubljana Marathon with BESTYOU Powerdrink and achieved my personal best time of 3:16 hours.

I have tested many sports drinks over the years. BESTYOU particularly impressed me. It is exceptionally well tolerated and provides a steady, stable supply of energy without any drop in performance. Even during long and intense periods of exertion, I had no stomach problems whatsoever. Another

decisive factor for me is the composition. No artificial sweeteners, fructose-free, and gluten-free. Exactly what the body needs during competition and what does not put additional strain on it.

BESTYOU impressed me not only in training, but especially in competition. For me, it is one of the best sports drinks I have used so far. A clear recommendation based on practical experience.

***BESTYOU is listed on the Cologne List  
and thus meets the strict requirements  
for dietary supplements in sports.***
